

## Co design working group formation

### Ideal working group size

Adapted from TACSI Planning co design engagement

### Characteristics of the working group members

When inviting people to be members of the working group, consider what skills you are looking for and who you may be able to recruit to bring balance to the group. The following matrix may assist your planning.

Member	Positively challenges the status quo	Can be influential in making things happen	Has high interest an or knowledge of the topic	Has strong links to people with lived experience who can inform
